**Abstract:** Name and reputation Dr. Mohammad Mosaddeq is linked to the oil nationalization movement in Iran. The fact is that over the long history of human social life and social action turns. People crossing the unconscious force of personality and world view and act out, unconscious that most of the major theories of psychoanalysis. Hence, processing and analysis of the character but the following is not possible to reconstruct the historical context. This study tries to focus on the concept of basic anxiety and tactics triple Horney, life and political action Dr. Mohammad Mosaddeq to analyze the aspects of political life and the passing of one of the most important figures in contemporary Iranian history check.

**Key words:** Dr. Mohammad Mosaddeq, political psychology, karen horney, Pahlavi government, horney

---

### INTRODUCTION

Dr. Mohammad Mosaddeq one of the key figures in the contemporary period Pahlavi. Change the course of events he is decisive and Dr. Mohammad Mosaddeq, it has been in development actors. So far, these developments have been investigated from various angles but have not been analyzed from the perspective of political psychology. So, the question of political figures and political psychology Dr. Mohammad Mosaddeq and reflect on their political behavior.

After considering various theories fit with the character of the doctor Mosaddeq in this study to explore life Dr. Mohammad Mosaddeq the basic concept of anxiety Horney Used. In the context of historical and family background check Dr. Mohammad Mosaddeq is particularly important. Diseases permanent Dr. Mohammad Mosaddeq and some of his moods and unique personality traits are necessary to adopt this view.

The hypothesis of this study is that it Dr. Mohammad Mosaddeq, at different periods of political life to the characters and pluralism and the dominance of isolationism has no escape.

### THEORETICAL FRAMEWORK: THEORY HORNEY

Karen Horney who called they knew with an emphasis on reducing the role of biological and social factors such as modifications in Freud's theories did, he introduced Freudian determinism and voluntarism in front

of it in policy making applications. In the following analysis highlights the elements of his theory can be summarized in the following proposition.

The concept of basic anxiety of view Horney conditions abnormal era childhood barrier training talents children and to and causes the formation of anxiety basic she gets in. This concept is at the core theory Horney There. He defines it says the child's sense of isolation and helplessness potentially hostile world and because of the limited world of children, the anxiety caused by poor parental relationship with the child will be created. (Schultz, 1996; Barzegar, 2010). The anxiety is caused by social factors, so if a child in a large family that is not the situation in which he suffered from anxiety and anxiety in children and adults ruling will not be (Siyasi, 1988).

He is the force that determines the character. Childhood is important in this respect. However, Horney like Freud, it is not definite cause but cannot change it, so the period of adolescence, youth and adults also changes personality and it continues (Barzegar, 2010).

Tactics triple child to overcome the anxiety of losing his tactics triple repeat the tactics and behaviors that lead to the formation characteristics and fixed in his and personality of the child will be formed. Child at environmental such insecure to followers a way is that own to from lasso abuse others free until lower with apprehension. Way some children to it hand and Yazd three cases out not superiority seeking and isolationism. If children and could exclusively one from the three shield defense shelter take with torment and pain not was but the problem here since on location the different, children

inevitably is from each three way remember by use and since the three ways with both conflict and inconsistencies are so and contrast at children created to that to the conflict basic and say. The resulting conflict from conflict basic so painful and frustrating is that children forced to some it to resolution and season. From the therefore, two cases from three cases remember by to hide the and at change case third to most outstanding from the next character and child behavior, on basis it case defensive is that at own outstanding.

**Needs ten:** Horney articulates ten human needs for all social needs. It needs to be mentioned in the tactics of the three. Five main requirements that are placed on the tactics include: the need to love others; require supportive; the need to honor and reputation; the need to praise others; the need for perfection and criticism.

Three requirements of ten social needs of the tactical supremacy: the need for power; the need to recruit others; the need to overcome and triumph over others. Two other causes need a skill misanthropy select the need to limit the need for self-sufficiency and self-reliance life (Siyasi, 1988).

**The ideal:** Mean, the tactics of a trilogy based on actual knowledge and talents that strives to be independent of social factors, personality of their own but sometimes failing to follow the solution anxiety tactics of the trilogy, a their own character and makes imaginary, hence, it is seeking to achieve an increase in internal stress or anxiety can be added to the external events that one can breaking the outside of the. The attributed to others failures (Barzegar, 2010).

#### **CHILDHOOD MOSADDEQ AND THE ANXIETY OF FAMILY DISPUTES**

Horney other psychologists have a strong emphasis on the importance of personality in childhood. Horney the influence of the social environment and the behavior of those around the child and the family knows. He has a lot of family and how the family knows the researcher based on the same Childhood Mosaddeq with more detail than the rest of the political life Mosaddeq evaluated.

**Fragmented families and family conflicts reason to create an anxious personality Mosaddeq:** Mohammad Mosaddeq in the year 1261 AD. The Court was born rich and influential family. His father Ali Mirza directed the Minister's office, cousin Iran's former prime minister and Mirza Yusuf Mostofi Almmalk. His mother, Najm al-Malik Taj from grandfather, great-grandson of Fath Ali Shah,

A. Frmanfar our sisters and cousins and Shah Najm al ruler over Dynasty dynasties Frmanfar use rich and powerful statesmen before and after the constitutional. Mother Mosaddeq Najm al, daughter, son Firuz Mirza Abbas Mirza was regent. Najm al broker Qajar court with three married. His first marriage Morteza Gholikhan Vakillolmamalek Sani Governed state Kerman his second marriage Mirza Hedayattollah his third marriage Mirza Fazlol lah Wakilolmolke Tabrizi, head office Mozafaroddin Mirza and later Minister of privacy Mozafaroddin Shah, respectively. The cause of every three marriages, his wife died of old age at bay. Mosaddeq according to tradition, the bureaucratic class Qajar and after normal school in the country, in 1275 Establishment of the Ministry of Finance in charge of Khorasan, one of the most important jobs was in that time, about 15 years old (Mosaddeq, 1979).

Mosaddeq about the extended family and siblings Prshmarsh is no mention. In letters and writings and biography he wrote at the end of life as something not to be found. Lack of any association Mosaddeq with his father's family can be very natural. It was not that he was even willing to take them as sisters and brothers' name could be a reference to possible problems and family conflicts. In fact, in the records of the courts of justice several cases complaints and numerous members of the family inheritance dispute are in minister's office. Records indicate that children lawsuits against each other, especially the senior brother, Mirza Hossein Minister's office, the main problem seems to wills Mirza Hedayat came back in time to all areas of his life and his property to his eldest son Mirza Hossein forgiven him how it was divided (Bani Jamai, 2013).

Mosaddeq in one of the few genetic differences between mother and brother Asharatsh the childhood years of senior has learned (Mosaddeq, 1979). This rule will not have a cause for happiness Mirza directed numerous women and children. The differences emanating from this will be quiet extended family and a competitive environment created for the development of personality considered. Approved implicit Mosaddeq this is likely to strengthen.

Mosaddeq in one of his writings on the nature of problem families' polygamy and constant competition and conflict, particularly are women and children on the father's legacy. Interestingly Mosaddeq this is not a biography or memoir but as part of his doctoral dissertation is. If Mosaddeq as a psychiatrist who founded the psychology on the basis of personal problems that concern her life was reflected in his doctoral dissertation. Epistle later to provide the law school is in fact the mapping Neuchatel Switzerland "in will Islamic law".

No doubt, refer to Dr. Mohammad Mosaddeq the hereditary and familial strife and neglect of children and the prevalence of suicide in these families are quite personal experience, he comes to a hadith of the soul. During these years also Mosaddeq father was almost deprived of attention. Because his family lived in the shadow of the heavy competition for spouses and children of various ages and Mirza directed that the greater part of aging and even though devote himself to the Shah advocated bureau in the final years of his life with the official seal was ready and was returned to her family but most of the time the patient was sick in bed, spent (Badiei, 1999).

So, during childhood Mosaddeq indicates that he was born in a family of one of the most important prerequisites for growth populous normal character display. His father, Mirza Ali has led many women and children have been great and in such circumstances, it is natural enough attention to everyone the family does not pay. But this deficiency though not entirely but a caring mother and a powerful compensated.

**Powerful mother figure Mosaddeq:** Study of childhood Mosaddeq, implies the existence of a powerful and ambitious mother as if her life's mission to meet the wishes of the boy and bring him to a high position. The influence of different conditions, particularly education Mosaddeq his appointment to government jobs in the madrassas of the court and its well demonstrated and personality development Mosaddeq and even after the death of a parent powerful influence Mosaddeq young continued.

Najmosaltaneh from the early childhood Mosaddeq is except as big as his son not think so. In particular, in the space of the family polygamy Mirza conduct satisfied the child can be a good defense mechanism.

The characteristics of the mother, sources indicate that Najmosaltaneh, woman courtly and with thought and powerful, respectively. Children own to best, if possible education was and problems life to with Accuracy and Practice Complete Resolution and Season this. He is religious and benefactor and Bolandnazar, respectively. Building hospital Najmieh and work charity others he showing charity and true-hearted Najmosaltaneh is that at most sermons researcher Mosaddeq from magnanimity and perspicacity he to species mother kind and guidance, remember and Mafi System Union.

Najmosaltaneh to ensure the future of her son crown Din Mirza from childhood Duzan considered (although the mother could take her as a wife for his son crown prince but he took his daughter in marriage Tehran Friday)

and hence Mosaddeq time but not in the ordinary madrassas registered madrassas court and he began to teach beside the king's sons and brothers. The early presence of government officials, distinguished educational environment, interacting with people volunteering to join the royal family and court years later, their effects on mental and spiritual or to be more precise on ambition Mosaddeq they left that purpose in leading oil nationalization movement can be seen.

Historical data show Mosaddeq hard-dependent mother and was interested, always admired him and knew his source of love and life expectancy. In this regard, Gholamhossein Mosaddeq about the special relationship Mosaddeq and she says, "the story of the mother-child relationship is described not allowed, mother, mother aspect of her sentence for her father was sent to Europe to continue her college education and love for the motherland and the people in his heart and he has a fertile superman was built, it was because my father told us two things I love in this world, my country and my country" (Mosaddeq, 1979).

**A brief overview of the political life Mosaddeq in the Shah's time to prime time Dr. Mohammad Mosaddeq:**

In the fifth and sixth of the national council on behalf of the people of Tehran and at the time of the Qajar dynasty ended with the reign of the first day of the Bank and Reza Khan, current Sardar to the position of the king RACE he strongly opposed to these choices. The life time of the sixth leg of the clay and the dictatorial Shah with the absolute beginning of constitutional government and democracy of which read, Dr. Mohammad Mosaddeq Nash home run during the years of the late Shah of the first of these was that all men were lost between the former or the hand or the nature of the government had Mosaddeq went to prison but were released after a few months and under the supervision of your property in Ahmabad was forced into silence. Reza Shah in 1941 after the invasion of Iran in the minibus to crush the forces Russian and Parasitology, after the reign the bid was removed and consequently the law of the South of Surf Dr. Mohammad Mosaddeq back to Tehran.

Dr. Mohammad Mosaddeq 12 parliamentary elections since the fall of the Shah was the other time as counsel to the institution of Tehran first step.

The 15 house for illegal interference in the election of Prime Minister of the consistency of the prince and the king were prevented Dr. Mohammad Mosaddeq step and leave the political parasites can impose contract of 1933 the Shah of Iran who for 60 years for the rights of the construction of the Southern oil waste of AS in the state of the forearm Maraghe the following. Fortunately, due to public pressure, the purpose of political parasites is not

securing the life of the XV congress of the clay. In this time period, the Dr. Mohammad Mosaddeq and relatives and the transition to the foot of the front of the thigh their national.

On the contrary the political parasites and fraud in the parliamentary elections of 16 with all the support from the King and the royal boxes of fake votes were invalidated Tehran the day of the royal puppet Highness Camp by devotees of Islam killed in a clay and in the second round of elections, Dr. Mohammad Mosaddeq and the fall of the way, the time of the General Assembly, after the death of a single vote of the national oil industry as a leader of the south. Dr. Mohammad Mosaddeq the image was a little salty and stands next to a public room Dr. Mohammad Mosaddeq on the 1st day of the clay of the national law of the oil industry to carry out a.

In the coming months paradise 1951 Dr. Mohammad Mosaddeq with one of the most trusted to do the 1st day of the parliamentary representatives of the RACE. First, this action Dr. Mohammad Mosaddeq was after introducing the Cobb of not implementing the national plan of the petroleum industry.

**Prime minister of personality and skill power:** On 20 April, Prime Minister Ashtiani Zadeh proposed Mosaddeq introduced in the house. This affected the consistency or fear Seyyed Ziya the achievements of the movement was gone. So, the order of a rector, xenophobic people were at the forefront of the movement. But what is clear from the tenor of his remarks being in such a position will also enable the militant character. In here Mosaddeq appears in the guise of an idealist. From the perspective of clinical psychoanalysis, the idealist is a person who has increasingly narcissistic. She actually has a personality psychosis (jasmine mixed with grandiosity) that generally neurotic like everyone else in the world around them apart and alien. But the solution is at hand that distinguishes him from the category of psychosis. He has a cause (political, religious, etc.), encroached and it is quite common for it. He did this because as an idol in complete submission to the will and its meaning in life is heat. He's terms of surrender, their identity is the idol. Betty has risen and absolute.

Idealism and passion can be a character from the thrill of victory and the acceptance by Mosaddeq she was seen in the epic tone "in the life of nations and positions of honor can be found rare in the heady days during normal fare is the same for all nations but what good and decent people of his duty to the country, flag and the history of the country contributed more than moral authority and spiritual greatness is shown" Mosaddeq at the height of the oil nationalization movement feels strenuous, the

revitalization of the nation, he said: "Iranian soul beyond its history of several thousand years and a new shine on the nihilism of his inability to be left behind" (Mosaddeq, 1979).

**Uprising 30 Tir and isolationism Mosaddeq:** Elections period seventeenth parliament with involvement along been and to convulsion long. Work appropriate receipt that then from 80 representative, Dr. Mohammad Mosaddeq to reason interference army and court with existence interference army forced was order stop elections areas remaining to issued did but some historians view are Mosaddeq with foundation remove to the wing opposite, majority able attention seats provincial to by will provided then from the selection respondents to limit curriculum reached (79 representative), elections to stop. Thus, the at parliament seventeenth representative from many towns great as Shiraz and Isfahan and Mashhad and total Khuzestan and sections from Mazandaran and Kurdistan and Hamedan and Lorestan presence had not and seats 55 delegates empty remaining, respectively.

Mosaddeq next from return from Hague to Tehran, on 19 July from parliament council national demand vote trust did and with 52 votes in favor, 3 against and 10 votes impossible officer formation cabinet out.

Parliament Senna at expression tendency to he delay hold and finally with mediation king that protection widespread thoughts general and characters to from Dr. Mohammad Mosaddeq you see, senators to reluctance on 18 July formation session data and from among the 36 senators currently, only 14 to Dr. Mohammad Mosaddeq votes the and 19 votes white (abstention) that and one person both to Fazollah Zahedi Hoda Votes contract. This thus, the Dr. Mohammad Mosaddeq majority absolute to at Parliament Senna business not and probably should next use. However, king to senators' message the that opposition not. The senators also without the formation Session They to Mosaddeq notice the that at time receiving votes trust majority votes to will respectively (Makki, 2008).

Baaghaz to work away new parliament at July 1952 Mosaddeq from king application did until minister war to he choose and proposal did that own the simultaneously ministry war to also on responsibility away. The king at answer Dr. Mohammad Mosaddeq that at demand ministry war to and was says "then please that I suitcase own to close and from this country go" reasoning Mosaddeq to tenure ministry war this was that "until interference court at it low to and things at Salah country progress the cause staff army under view royal from

each imperative that I said, implementation was but government that responsible was carry could do and not”.

Negotiations of Mosaddeq and king are at this case to where not and Dr. Mohammad Mosaddeq on 25 July 1952 from office own resignation. However, consistency is king in his place was the best moment to succeed. But Mosaddeq this has also been followed.

Mosaddeq a few weeks ago when they left the country and went to the Court of Justice in the Hague. The Hague assured that great Britain will win. That's why the opposition to the Shah decided to the court of justice of the Prime Minister for the country and return resign. This was not the first time that Mosaddeq to attack the problems rather than dealing retreat. At the time of the 1919 treaty Dawla authority to Switzerland and at the moment the electoral fraud 1947 Ahmedabad had gone to his house and had secluded. The time also with regard to their psychological pattern adopted the same policy. Therefore, when the king refused to offer him the war department decided to resign and leave the court. Let not the king who was concerned about the internal and external forces tried to mobilize against him from leaving Mosaddeq. This was the moment when one of the defense mechanisms Mosaddeq expression finds the old mental abilities of fainting. On 25 July Mosaddeq unbeknownst to friends and colleagues and advisors or ministers resigned and went into his house in Ahmedabad.

The day after the resignation Mosaddeq the appointment was announced and consistency. The developments came as a policy of intimidation and the threat of consistency and sacrifice that led Kashani Mosaddeq at the peak of popularity and authority to return to power. Especially, the day after it was announced that the court of justice in favor of Iran.

The same pattern of isolationism in the moment of crisis that a year later he moved to the referendum to dissolve parliament. This happened when the national front split happened, cunctation, survival of the, the high Haerizadeh opposition to JEBHE Mosaddeq gone were the king and differences Mosaddeq Ashraf and matriarchy was changed with the arrival of the band. The developments in the international arena and move America to support the nationalization of oil into neutral and then turned hostile. The day of America to the conclusion that more on the skirt falls to communism, especially the freedom granted Mosaddeq mass to be more active. The government is wrong, the all-powerful and hostile activities of the party was closed.

**Dissolution of parliament by Mosaddeq:** The publication notes that the excellent staff supervision by the national

assembly was elected to the National Bank's operations had supervision. At Khordad 1953 Hossein Makki instead, a member of the delegation was elected by parliament. Mosaddeq later and had told her that he was concerned with the delay of 3.1 billion printed bill that was adopted as a result of economic pressures and sanctions have to be aware and take it to people. Although, legal and did government legal and was measured in economic terms but also fear Mosaddeq, it was informed that the increase in prices and inflation is arbitrary. Fears Mosaddeq but more than that it was that this would act as his political opponents and economic bankruptcy of the outcome of this to the people unaware of confused Mosaddeq he knew that many of the democratic way out was catastrophic.

Survival pressure on the government by murder defendants claims Afshartos calculations Mosaddeq. Political and democratic and legal process appears to be (Mosaddeq, 1973).

What was the basis for the illusion of mental illusions Mosaddeq and that this issue was considered to mean the collapse of his own character as I said previously, Mosaddeq their psychological fate of the national movement was grafted. As far as Mosaddeq takes this, in fact, Mosaddeq epic has once again decided to ride over the excitement of public opinion from the national front members in the next election they could not vote. The calculations Mosaddeq, it was wrong and did not join any fancy to reality. The resignation more than two thirds of the accompanying Mosaddeq this was also evidenced. At the same time, his closest associates including GH Siddiqui, squirrels, Ali Khalil real and again he cautioned that the dissolution of Parliament is not right. They knew about opportunism conductors of a coup and the plebiscite excuse give them even Khalil Maleki said, the way you are going to hell but you will end up in hell are we going to come looking for you Katuzian and Siddiqui also warned that this action will allow you to make you king of the ousted prime minister Mosaddeq replied no guts. Abdullah Moazzami also in the absence of Ayatollah Kashani was in charge of presidency in protest of the decision Mosaddeq resigned and left the capital.

The opposition has the opportunity to decide Mosaddeq Behbehani, it believes to be illegal and dictatorial and Kashani and read. Nevertheless, the referendum to dissolve parliament was ineffective resignation which was two-thirds of MPs Mosaddeq, it was not considered. In terms of the psychology of the masses, his goal is to gain support for his personal integrity and his confidence was maintained. The election shall be held and other mistake mistakes Mosaddeq.

**Relations with the religious movement: integrity, ambition and personal power:** Ayatollah Kashani and movement in relation to the religious background, Mosaddeq now the assignment of responsibilities and division of oil nationalization was not proud. It is related to the power of personality Mosaddeq Horney Mosaddeq essentially of a certain type.

In this context, it can be said that Mosaddeq the paradox of creating a national government with maintaining and integrating dictatorship desist authority.

**Mosaddeq:** To power by a person or group of persons and other groups as is the loss of power. This is where the theory of power Horney true. But whether this power is nervous, considering his family background, backup and support a mother's personality and political failings, it seems to be a healthy mix of nervousness sick with power. But because that Mosaddeq such exclusive right to own state, he just seems to find its way more nervous. It seems that Dr. Mohammad Mosaddeq effects on the collective approach are not shining.

When Ayatollah Kashani based on years of experience in the political struggle against colonialism and dictatorship on 27 August 32, the day before the coup, he announced that the show is known for a coup is taking place and he sends and invited him to move collectively, the answer Dr. Mohammad Mosaddeq doctor Mosaddeq longer on the sidelines, he had no power to grasp it. In the words of the late Ayatollah Kashani Backed by the power of the parliament was dissolved by him. For Dr. Mohammad Mosaddeq other people focus on politics and organizing them can be achieved in this work will never be static and cultivation Dr. Mohammad Mosaddeq and the national front was not.

Dr. Mohammad Mosaddeq evens his refusal to accept the historical reality. Dr. Mohammad Mosaddeq the government proved short-lived when egotism luster associated with the motto of the national government will lead to the deterioration of social responsibility and the result of the coup and the rise of tyranny. Government programs Dr. Mohammad Mosaddeq in a manner that does not provide the conditions for interaction with others. All she had to choose it or deal with it.

Grounds Dr. Mohammad Mosaddeq insist on the truth of his will in itself is interesting. He writes in his memoirs to justify the government's responsibility: if Mr. Syed Zia was prime minister until I could no longer put the issue (of oil) would follow. I also worked with a number of detention or exile. In short, it preserves the country where to Nobody loud and he was not able to finish their work (Afshar, 2003) but when it comes to the measures that feared the Seyyed Zia commit themselves

to commit the worst practices of the country of protection and social security bill by bill powers and let the sound out is nowhere and no one. Ayatollah Kashani as a special effect in strong leaders who came to power this year Dr. Mohammad Mosaddeq will actively seek trust and cooperation in dealing with the enemies of the Iranian people but the government's response cold water on a hot fire revolutionary sentiment and his companions were Kashani.

## CONCLUSION

Of personal and social life Mosaddeq his record shows that after a long class has emerged in Iranian politics. Aristocracy lineage that author Mosaddeq at it training results was at syndication with court formed that root at jobs government and executive very important evening Safavid and Almmalk have that coordinator with other since Sadralmmalik Secretary Almmalik and Mamalek and except these organs government to created brought. The side at period afshariyeh and Zand the occasionally standing stay and with reign Qajar and "court" boom further found. Mosaddeq and political training which is normally awarded to him by the class background of many adversities in his spirit was modified. Nevertheless, these conditions psychological effects of the unique left family. Manner anxiety fundamental to interpret Horney left and at the moment of his greatest difficulties and political pressure to form their own show attack nerve, physically fit ill-tempered and oral bleeding problems that Mosaddeq they frequently suffers. But in response to political developments and the appropriateness of the location, Mosaddeq alternately trying tactics, retreat and power use. It is compatible with the construction. Thus, the moment w the most vulnerable youth and in his character Mosaddeq young was trying to use their skill M against rivals but of the constitution provided an opportunity to exercise his power. The combination is evident in her retreat and power. Revolution Shah and attacked him on politics and society but more than ever Mosaddeq tactics character forced into isolationism. Attack nerve, pessimism and fear of the characters in these years a lot of mental energy he had destroyed. He was on the verge of mental fatigue so that the nationalization of oil more it is already evident. But what is clear Mosaddeq due to the growing political and psychological support that was created for him by the end of the coup of 28 August 1953 he was uneasy power abilities of the character.

From total topics ago statement to power result were that national become oil opportunity good to outbreak next power seeking character Mosaddeq prepared brought, respectively. In accordance division

category Horney from mechanisms by defensive and IOU character anxiety and nervous to they are this mechanisms to cover-up on Fiasco by personality by such individual adoption to use. However, power seeking at Mosaddeq altogether and fully from type III not. In framework logic theoretical Horney, power seeking to be at bed conditions natural face the order that possible is individual at conditions Darabe power somatic or psychological background domestic and or location political or careers own feeling power and excellence ratio to rest have there. The matter at case Mosaddeq that historical aristocratic and educative political and courtier have is view natural. Therefore, this type power seeking from type pathological and nerve not. But on other coin power seeking Mosaddeq at bed environment insecure domestic and with chaos and competition and illness continual he own to show. The interaction this two next, at throughout history short national become oil at character Mosaddeq own to show. The Souffle that from above history strong experience political Mosaddeq and also family his at affairs political and also history own Mosaddeq at work executive and state by gulf and Azerbaijan to power seeking he to national the oil and by of power at Iran to understand that. But above and landing and swing behavior and reaction by Mosaddeq at length life this movement show from nervous be and anxiety personality he there. In particular, at items multiple with transition from screw and bend by organizational and party, passion and thrill libidinal mass and to bankroll government own the contract. This matter to power rear housing mental and anxiety basic time and untimely to that leads to corner housing and leaving play was to also addition. Sentence items power to at hand of first minister mention. In this time he beyond from one representative democratic it that always to it to proud and it to medicine

all pain Iran to know and to as one leader epic speech and power zoom out. Just hold on to mass and transition from role by sectarian at finally leads by was that at finally he to wrong great and tactics drew. Wrong that at it with breakup parliament both causes gap at coalition sectarian and religious own was and both leads to coup of 28 August. The coup although to society Iran coup political meaning find did that at independence political nation from hand went and until years next rule England on resources national Iran continuation found but to Mosaddeq that solidarity personality own to at pledge ago remove total and all this movement with was coup psychological also meaning found because with failure movement virtually integration personality he also collapsed.
