The technique of data analysis used by descriptive statistic, data organization, reduction and data interpretation. The results showed that development model of quality of bureaucracy tourism service were tangibles, reliability, responsiveness assurance, empathy, safe, comfort and clean model while the degree of quality of bureaucracy tourism service in Lake Toba Parapat was enough.

Key words: Development model, quality of bureaucratic tourism services, touristm visits, responsiveness, technique

INTRODUCTION

In Act No. 10 of 2009 Tahun state that the purpose of tourism development is to promote economic growth, improve people's welfare, eliminate poverty, unemployment, preserving nature, environment and resources, to develop culture, raised the image of the nation, fostering patriotism, strengthen the identity and unity of the nation and strengthening the friendship between nations. This statement supported by Spillane (2003) that tourism has the potential to increase revenue, bring new jobs and reduce unemployment. So, it is important to increase tourism destination now on in the world especially Lake Toba Ptapar North Sumatera.

Although, many programs had been executed to enhance tourist visit in Lake Toba Parapat North Sumatera, in fact the tourist visit both foreign and domestic now on became decrease from 2014-2016 as shown in Table 1.

The decline of tourist visit both Foreign and domestic last 3 years, made the reasons why do these research by taking the title "Development Model of Bureaucratic Tourism Service Quality To Enhance Tourist Visit In Lake Toba Parapat North Sumatera".

Literature review: One of the functions of the bureaucracy is to provide a quality service in various sectors include the quality of bureaucratic tourist service in this regard. Therefore, research of the quality of bureaucratic tourism service to enhance tourist visit in

Table 1: Tourist Visits In Lake Toba Parapat North Sumatra 2014-2016

Tourist visit (years)	Domestic	Foreign	Total
2014	103.202	25.573	128.775
2015	99.731	17.120	116.851
September 2016	80.339	11.279	91.618

Office of Head of Girsang Sipangan Bolon Distric Lake Toba Parapat North Sumatera, 2016

Lake Toba Parapat North Sumtaera become important at this time. Kumorotomo (1996) stated that the quality of public services if efficient, effective, responsive and fair. While Tjjiptono (1997) stated that the quality of service that was complianced with the demands, suitability for use, continuous improvement, free of damage, fulfilling the needs of customers since the beginning and at all times, do everything correctly since the beginning and something make customer happy.

Furthermore, Zeithaml *et al.* (1990) suggest five dimensions of quality service, namely include tourist service quality namely "Tangibles: appearance of physical facilities, equipment, personnel and communication materials; reliability: ability to perform the promised service dependably and accurately; responsiveness: willingness to help customers and provide prompt service; assurance: knowledge and courtesy of employees and their ability to convey trust and confidence; empathy caring, individualized attention the firm provides its customers". These theory used in this research.
